

Mikah Dupuis

Information Technology

As a first-year Computer Information Technology Program student I am looking to put to use the valuable skills I have learned from my previous work experience and education into a real world application.

Experience

2021 -2022

Database Analysis and Management – ShopTolt Inc.

Working alongside the deployment and programming team develop an industry first to market, digital marketing strategy to over 60 000 small businesses across Canada.

2016-2020

Foothills Academy Library

Organized and sorted returned reading material then catalog and scanned returned material into the system. Provided suggestions to students for potential reading material.

2020

Cowboys Casino

Volunteered, Responsible for opening tables, handling chips and other relevant day-to-day operations

2023-2024

Lethbridge College

Led a group and performed on behalf of Lethbridge College, for the OH&S department, helping develop the present database and add additional app features
